

2023 HAH Resource Directory Skills Listing

The Utility Services Committee has updated the directory and has over 450 skills. If you would like to add your name and skill to it please e-mail EricBoysko@yahoo.com (also include your phone number). We'd especially like any skills not listed.

The directory can be used on all HAH projects from all the amenities to maintenance people, from ad hoc, to routine planning. The office will be responsible to share only the relevant directory contacts to the project head on an as needed basis to maintain privacy. Remember, these members offered to share their expertise with the community as a consultant or 2nd opinion. They have not asked run the project. Each skill may have multiple members.

ACCOUNTING	CONSTRUCTION-HANDY MAN	Engineering - Mechanical
Accounting -PAYROLL	CONSTRUCTION-HVAC	ENGINEER-STRUCTURAL
